## PROJECTS

- **AppTracker:** Full-stack application using React, Node, Express, and MongoDB allowing users to create and login to an account to save all their job application information using full CRUD commands and a RESTful API.  
Deployment: <https://apptracker-app.herokuapp.com/>  
Repo: <https://github.com/Brian-Holland/AppTracker>
- **GitHub Finder:** Responsive React application utilizing the GitHub API to search for GitHub user information and displays the API response in a custom profile component.  
Deployment: <https://github-find-app.netlify.app>  
Repo: <https://github.com/Brian-Holland/Github-Finder>
- **Magic 8 Ball:** Classic Magic 8 Ball created using React. Users can ask a question and/or shake the ball to trigger a shaking animation and a slow fade in of one of the original 20 predictions inside the ball.  
Deployment: <https://www.askthemagic8ball.com>  
Repo: [https://github.com/Brian-Holland/React\\_Magic\\_8\\_Ball\\_Hooks](https://github.com/Brian-Holland/React_Magic_8_Ball_Hooks)
